Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN'S MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 13th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, TRANSIT OF FIRST POINT OF ARIES, shows for every day the mean time* at which the FIRST POINT OF ARIES passes the meridian of longitude 4h. 46m. W. (71° 30′), and for any other meridian a correction of 0.655 secs. per degree will have to be applied, minus for longitudes west of the 71° 30′, and plus for east. This column is put in especially to be used in connection with the Tables for Time and Azimuth of Polaris when vertical with certain other stars.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 49′ 24″. The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric ☌, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance

Almanac the hours are numbered from 0 (midnight) to 23.

imes are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places n from them in latitude may be obtained with sufficient accuracy for ordinary purposes by tes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the transit of the *First Point of Aries* may be derived, with the aid of the following table, the approximate times of culmination, in the Vertical of of Polaris, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the transit of the *First Point of Aries* for the given day in the calendar. If the result exceeds 24 hours, *subtract* 23h. 56m. To find when a star is in the *Vertical of Polaris* proceed as described for meridian passage, using the figures in the middle column instead of the first column.

To find the time of *rising* of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. The stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the time of *culmination* in the *Verical of Polaris*, and rising and setting of α Aquilæ (*Altair*), September 23rd, 1909.

ECLIPSES IN 1909.

In the year 1909 there will be four eclipses, two of the Sun and two of the Moon.

I.—*A Total Eclipse of the Moon*, June 3rd, 1909, partly visible at Toronto, the Moon rising eclipsed. The following is the Eastern Standard Time of the different phases :—

Moon enters Penumbra..	June 3rd.	.... 5h.	36m. p.m.
Moon enters shadow.....	"	.... 6h.	43m. "
Total eclipse begins.....	"	.... 7h.	58m. "

Moon leaves shadow ...	"	....10h.	14m. "
Moon leaves Penumbra..	"	... 11h.	21m. "

Magnitude of eclipse = 1.164 (Moon's diameter = 1.0).

II. *A Central Eclipse of the Sun*, June 17th, 1909, visible at Toronto as a partial eclipse, the Sun setting eclipsed. The Central eclipse will begin as an Annular eclipse, will change in a few seconds to a total eclipse, will remain so until within a fraction of a minute of its end, when it will change back to an Annular eclipse. The central line will pass very close to the North Pole. At Toronto the various phases will occur as follows :—Beginning of eclipse, 6h. 57m. p.m. The position angle of the point of contact being 297° 45′ from the N point of the Sun's disc towards the east for direct vision. At sunset about one half of the Sun will be obscured. At Ottawa the eclipse begins at 7h. 1m. p.m.

III. *A Total Eclipse of the Moon*, Nov. 27th, 1909. The following being the times of the different phases :—

Moon enters shadow.....	2h.	11m. a.m.
Total eclipse begins.....	3h.	14m. "
Middle of the eclipse.....	3h.	55m. "
Total eclipse ends.....	4h.	36m. "
Moon leaves shadow	5h.	38m. "

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0·003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1909

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal and Current Survey, in the Department of Marine and Fisheries of the Dominion of Canada. They are based upon observations obtained by means of self-registering tide gauges, which are kept in continuous operation day and night throughout the year. The records are reduced by the latest methods of analysis, and the computation of the tables is made in the Nautical Almanac office, London.

The Tide Tables are based upon the analysis of the following tidal record:—Halifax, upon record obtained during the years 1851, 1852, 1860 and 1861, together with nine complete years between October 1895 and July 1906. Quebec, upon eight complete years, between November 1893, and March 1902. Father Point, upon six complete years, from January 1897 to June 1903. St. John, N.B., upon eight complete years, between April 1894 and June 1903.

NOTE.—Tide Tables are also calculated and issued by the Tidal and Current Survey, for the following ports:—

Charlottetown, Pictou, and St. Paul Island, with tidal differences for Northumberland Strait, etc.

Cap à la Roche and Beaujeu channel, above and below Quebec.—These are at present the shallowest points at low water, until the deepening of the ship channel to Montreal is completed throughout.

Victoria, B.C., Sand Heads in the Strait of Georgia, and Port Simpson; with tidal differences for Esquimalt, Vancouver, New Westminster, Nanaimo, Baynes Sound, etc., and tables showing the time of Slack Water in the various Passes and Narrows.

INVESTIGATION OF CURRENTS.—The currents in the Gulf of St. Lawrence, Belle Isle Strait, the Bay of Fundy, and off the coast of Newfoundland, are also being investigated by the Tidal and Current Survey. The results are published as pamphlets, which may be had on application to the Department of Marine and Fisheries, Ottawa.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Halifax Harbor.

THE DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 23·4 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Halifax, are given on page 38.

TIDE TABLES, QUEBEC, 1909.

The TIME used is Eastern Standard, for the 75th Meridian, which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Quebec Harbor.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 7·7 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Quebec, are given on page 38.

The TIME used is Eastern Standard, for the 75th Meridian, which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Quebec Harbor.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide *add* 7·7 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Quebec, are given on page 38.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbor are referred, as nearly as this can now be ascertained.)

TIDAL DIFFERENCES for the Bay of Fundy, are given on page 38.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbor are referred, as nearly as this can now be ascertained.)

TIDAL DIFFERENCES for the Bay of Fundy, are given on page 38.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at Spring Tides as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbor are referred, as nearly as this can now be ascertained.)

TIDAL DIFFERENCES for the Bay of Fundy, are given on page 38.

LEGAL WEIGHTS AND MEASURES IN CANADA.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Act 42nd Vic. (1879), Chap. 16 (amended by Chap. 30, Acts of 1898), it is provided: That in contracts for sale and delivery of any of the undermentioned articles, the bushel should be determined by weighing, unless a bushel measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat, 60 lbs. Indian Corn, 56 lbs. Rye, 56 lbs. Pease, 60 lbs. Barley, 48 lbs. Malt, 36 lbs. Oats, 34 lbs. Beans, 60 lbs. Flax seed*, 56 lbs. Hemp, 44 lbs. Blue grass seed, 14 lbs. Lime†, 80 lbs. Castor beans, 40 lbs. Potatoes, 60 lbs. Turnips, 60 lbs. Carrots, 60 lbs. Parsnips, 60 lbs. Beets, 60 lbs. Onions‡, 50 lbs. Bituminous coal, 70 lbs. Clover seed, 60 lbs. Timothy, 48 lbs. Buckwheat, 48 lbs.

By the same Act the British hundredweight of 112 pounds and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds, and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

By recent Acts it is ordered that for apples the barrel shall be 96 quarts. Size, length, 26 inch between head (inside measure); diameter (head) 17 inches; middle diameter, 18½ inches. Boxes, 11 x 10 x 20 inches containing 2,200 cubic inches.

*Changed from 50 to 56 lbs. by Act of Parliament, 1898.

An acre *roughly* stated has four equal sides of 69½ yards; *accurate* measurement gives each side 208.71 feet.

The sides of a square half-acre would be 147.581 feet, and of a square quarter-acre 104,355 feet.

Measures of Time.

60 seconds = 1 minute.
60 minutes = 1 hour.
24 hours = 1 day.
23*h.* 56*m.* 4*s* = 1 sidereal day.

365¼ days = 1 common year.
366 days = 1 leap year.
365*d.* 5*h.* 48*m.* 46*s.* = 1 tropical year.

The astronomical day commences at noon, and is computed from 1 to 24 hours.

In 400 years 97 are leap years and 303 common, leap year being omitted every 100 year, but *not* omitted every 400th. (1900 was not a leap year.)

Angular Measure.

60 seconds″ = 1 minute.
60 minutes′ = 1 degree.
30 degrees° = 1 sign.
90 degrees° = 1 quadrant.
4 quadrants, or 360° = 1 circumference or circle.

The earth rotates at a velocity of 15 degrees an hour (about 17.366 miles a minute at the equator); 1° is therefore equal to 4 minutes.

Circular Measure.

Diameter of a circle × 3.1416 gives circumference.
Diameter squared × .7854 gives area of circle.
Diameter squared × 3.1416 gives surface of sphere.
Diameter cubed × .5236 gives solidity of sphere.
One degree of circumference × 57.3 gives radius.
Diameter of cylinder × 3.1416, and product by its length, gives the surface.
Diameter squared × .7854, and product by the length, gives solid contents.

A circular acre is 235.504 feet, a circular rood 117.752 feet in diameter. The circumference of the globe is about 24,855 miles, and the diameter about 7,900 miles.

Electrical Measures.

For the Measure of

Volt	Electromotive force = about 92.6% of that given by one Daniell's battery cell.
Ohm	Resistance = the resistance offered to the passage of a current of electricity by a thread of mercury 106 cm. long and 1 mm. cross section at the temperature of melting ice.
Ampere	Current = the current 1 volt will drive through 1 ohm.

The gallon is = 277¼ cubic inches = 0.16 cubic feet = 10 lbs. distilled water.

Cisterns: 1 cubic foot is equal to about 6¼ gallons, or 62.321 lbs. A cistern 4 feet by 2½ and 3 deep will hold about 187 gallons, and weigh nearly 16 cwt. in addition to its own weight.

A cubic foot of pure gold weighs 1,210 lbs., pure silver 655 lbs., cast iron 450 lbs., copper 550 lbs., lead 710 lbs., pure platinum 1,220 lbs., tin 456 lbs., aluminium 163 lbs.

METRICAL WEIGHTS AND MEASURES.

The French metrical system is based upon the (assumed) length of the fourth part of a terrestrial meridian. The ten-millionth part of this arc was chosen as the unit of measures of length, and called a *Metre*. The cube of the tenth part of the metre was adopted as the unit of capacity, and denominated a *Litre*. The weight of a litre of distilled water at its greatest density was called a *Kilogramme*, of which the thousandth part, or *Gramme*, was adopted as the unit of weight. The multiples of these, proceeding in decimal progression, are distinguished by the employment of the prefixes *deca*, *hecto*, *kilo* and *myria*, from the Greek, and the subdivisions by *deci*, *centi* and *milli*, from the Latin :—

THE IRON AND STEEL INDUSTRY.

If the importance of the various great groups of industries pursued in the Dominion may be estimated by the value of their products, the iron and steel industry (according to official statistics) comes fourth on the list. In 1905, the value of the output amounted to over fifty-three million dollars, an increase of nearly eighteen million dollars over the figures for 1900. It was estimated that there were in 1905, 707 manufacturing establishments employing five hands or more, and having iron and steel for their chief raw material. In these was invested a capital of over 61 million dollars, and they gave employment to 30,480 workmen, who received in wages nearly $14,000,000.

In value of products the iron industry is outranked by the food-producing industry, the lumber industry and the textile fabrics industry, but it so lies at the base of every other industry (as practised in modern times) that a stoppage in the supplies of iron and steel would be as disastrous in its effect on the complex organization of modern society as some tremendous revolution or convulsion of nature. A dearth of iron would soon paralyse the transportation service, silence every factory in the land, reduce to a minimum the productivity of every farm, and disorganize the methods of work in every office, hospital, kitchen and household throughout the country. In brief, our twentieth century civilization, with its rush and hurry, its gigantic commercial undertakings and its enormous fortunes is dependent to a marvellous extent on machinery, and therefore on iron.

The raw materials of this industry—that is to say the iron ores and the fuels necessary for smelting them—are widely distributed throughout the world. Canada has abundant deposits of different kinds of iron ore. Clay ironstones, hematite and bog-iron ores are found in many parts of the Dominion. Magnetic ores are found in British Columbia and in several counties of Ontario, chromic and titanic ores in Quebec, and manganese in the Provinces of New Brunswick and Nova Scotia.

Many rich deposits are as yet unworked, but in 1901 there were eleven mines for iron ore, four for chromic iron ore, three for manganese, and five for limestone to be used as flux in the iron works. These mines gave employment to 2,560 officers and workmen.

In some of the provinces, the ores belong to the Crown, in others they are the property of the owners of the soil.

It has been said that many of the Canadian deposits of iron ore suffer in practical value by their distance from the coalfields. To a certain extent improved methods of working and better means of communication may overcome this disadvantage, and there are rich deposits of iron ore to which this objection does not apply. Nova Scotia has coal and iron mines in close proximity, though the greater part of the ore used in the works of the Dominion Iron and Steel Company at Sydney, C.B., is brought from Wabana Island, off the coast of Newfoundland. British Columbia has also deposits of iron ore, which lie conveniently near to coal. Between the Comox coalfields and the beds of magnetic ore on Texada Island there intervene but twenty miles of the navigable waters of the Strait of Georgia. Both coal and iron mines moreover are situated close to the water's edge, and the ore is exceptionally rich, containing over 68 per cent. of iron and a very low percentage of phosphorus and other impurities.

Notwithstanding her own wealth in minerals, Canada has always imported a large proportion of the manufactured products of iron used, and (as already hinted) she imports at present much of the ore used in her blast furnaces. For instance, while the Dominion Iron and Steel Company depends on Newfoundland ore, the Algoma Steel Company of Sault Ste. Marie, draws a large part of its supplies of ore from American mines in the neighbourhood of Lake Superior.

According to Mr. Edward Porritt (an authority on the Canadian iron industry, to whom I am greatly indebted for much of the information contained in this article), when, on July 1st, 1907, "the daily capacity of all the blast furnaces in Canada on the active list was 2,335 tons, of this capacity only 310 tons was employed on Canadian ore."

About the time of Confederation (in 1868) Canada imported iron, steel and the manufactures thereof to the value, in round numbers of $6,885,000. In 1885, the imports in this class amounted to a value of nearly nine and a quarter million dollars. In 1902 the value fel little short of thirty-three millions, and by 1906 it exceeded forty-four and a half millions. Of this latter amount more than three-fourths came from the United States. To put the matter in another way, while the population of the Dominion has not quite doubled since Confederation, the value of the imports of iron and manufactures of iron is more than six times what it was in 1868.

Notwithstanding this increase in the importation of iron, the growth, during the last quarter of a century, of the iron smelting industry in Canada has been marvellous. This is due largely, as we shall see, to government aid, given in a variety of ways and on the most liberal scale. But the industry has profited also from the enormous activity in the building of railways, which has characterized the history of Canada since Confederation. The Dominion now has more railway mileage in proportion to the population than any other country in the world, and this is still increasing with phenomenal rapidity.

The iron industry in Canada is an old one, but the time of its feeble and struggling "infancy" was prolonged.

Its history may be divided into three periods. During the first of these (roughly coincident with the French regime in Canada), there was only one small blast furnace in the country, and this, for many years, was operated as a government work. The second period, lasting from the French cession of Canada to the year 1879, was the time of individual effort and (unfortunately) of disastrous failure. The third was the modern period of government encouragement by a protective tariff and by bounties.

The discovery of iron ore in Nova Scotia dates from the visit of the first French explorers in 1604, and the fact that there were deposits of bog-iron ore on the St. Maurice River was reported to the French government as early as 1667. A few years later Frontenac visited the mines and urged the king to establish forges, but it was not till 1737, nearly forty years after the old governor's death, that "La Compagnie des Forges" was empowered to erect ironworks near Three Rivers. This company, having received a royal grant of 100,000 livres, built a blast furnace, but its operations were unsuccessful, and in 1743 the king took over the works. The old blast furnace was then improved or rebuilt and a Walloon hearth was erected. These works were in use for 140 years. Soon after their establishment they were visited by the Swedish professor, Kalm. He expatiated on the ease with which the ore for smelting, the charcoal for fuel and the limestone for flux could be obtained, on the cheapness with which the finished products of the works—stoves, kettles, tools and cannon—could be distributed by the waterways through the country; and expressed wonder that, with all these manifold advantages, the industry did not pay expenses. He slyly added, however, that "the officers and servants belonging to the ironwork appear to be in very affluent circumstances."

The story of the St. Maurice Forges would fill a volume and cannot here be told in detail. As already mentioned, they continued to be worked till late in the nineteenth century. About 1832 the establishment was very flourishing. From 250 to 300 men found employment there, manufacturing a large proportion of the stoves and kettles used in Canada, and also a considerable number for export. The works and their owners alike suffered numerous vicissitudes however. The forges changed hands frequently, and not a few of their successive possessors suffered ruinous losses. During the last twenty years whilst the old furnaces were in blast, the chief product was car-wheels, and before it was

finally closed it won the distinction of being "the oldest active blast furnace on the American continent."

At other places in Canada, and also in New Brunswick and Nova Scotia, attempts were made, from time to time throughout the nineteenth century, to turn to account the bountiful deposits of iron ore distributed through the country. With few exceptions, these efforts involved their promoters in disaster, if not in ruin, resulting perhaps from lack of experience and lack of capital for carrying on a work which is necessarily so expensive as iron-smelting.

Till 1879, pig-iron, steel and most manufactures of iron were admitted into the country duty free, or at a very low rate of duty, but that year marks an epoch in the history of the Canadian iron industry, for then was inaugurated the new policy of government support and encouragement. From that time to the present day the iron industry has been the favoured protégé of our legislators and tariff-makers. In fact, it has received encouragement on a scale which may be fairly described as magnificent.

By the tariff of 1879, which was but an earnest of what was to come, a duty of two dollars a ton was placed on imported pig and scrap-iron, a duty of twelve and a half per cent. on imported slabs, blooms, billets and puddled-iron bars, and a duty of seventeen and a half per cent. on merchant-iron.

At this time iron smelting certainly came under the category of infant industries, for there was but one company having a plant of the modern type—the firm established at Londonderry, N.S.—to profit by the protection these duties afforded. This aid soon appeared insufficient, and, in 1883, the government of which Sir John Macdonald was Premier began that system of bounties, which is still continued by their successors, though more Canadian pig-iron is now manufactured in three weeks than was then made in a year.

In this connection a brief summary of the bounty legislation may be of interest. In 1883 it was enacted that a bounty should be paid on pig-iron manufactured in the Dominion from Canadian ore. The rate was to be $1.50 per ton from 1883 till 1886, and $1.00 per ton from 1886 to 1889.

But in 1886, the period during which the higher rate of $1.50 per ton was to be paid was extended to 1889, and from that year to 1892 a bounty was to be paid of $1.00 per ton.

In 1892 it was enacted that a bounty of $2.00 per ton should be paid on pig-iron from Canadian ore from July 1st, 1892, to June 30th, 1897.

In 1894, the period during which bounties were payable on Canadian pig-iron was again extended (to March, 1899), and a new bounty of $2.00 per ton was granted on puddled bars and steel billets manufactured in Canada from Canadian ore. On the output of furnaces and rolling mills already established this bounty was to terminate in March, 1899. In the case of new plants established during the period the bounty was to be continued for five years from the date when their productive operations began.

In 1896, the Liberal party, under the leadership of Sir Wilfrid Laurier came into power, but the only change made in the policy of encouragement to the Iron and Steel Industry was to extend and increase the bounties. In 1897 the bounty on pig-iron and puddled-iron bars, made from Canadian ore, was increased from $2.00 to $3.00 per ton, and a new bounty of $3.00 per ton was granted on steel ingots, manufactured in Canada from pig-iron, of which fifty per cent. had been made in this country. These bounties were to lapse in 1902.

Two and a half years before that time, a new act was passed continuing the bounties till June 30th, 1907, but on a gradually diminishing scale. For instance, the bounty of $3.00 per ton, payable in 1903, on steel ingots and pig-iron manufactured from native ore, was to be reduced gradually to 60c. by 1907, and that on pig-iron from foreign ore was to be reduced during the same period from $2.00 per ton to 40c.

In October, 1903, further bounties were given (1) on rolled-wire rods to be used in Canada for making wire, and (2) on rolled plates, girders, structural steel sections, etc. The bounty on the former was to begin at $6.00 per ton, diminishing to $2.10 in the fiscal year, 1906-7, and that on the latter was to begin at $3.00, diminishing to $1.05 per ton.

In the tariff revision of 1907, the period during which bounties were to be paid was again extended to 1910, and, in the case of iron smelted by electricity, to 1912. (For details see Schedule "C," Canadian Tariff of Customs, page 125, of this book.) These bounties are not to be paid on iron and steel for export, but as the plants in the Dominion cannot supply the home demand, this clause is of little practical importance.

The amounts paid in bounties on iron and steel reach far into the millions. From 1883 to 1897 the amount paid was $714,700, but from 1897 to 1906 it had risen to $8,935,200, and it has been estimated (judging from the capacity of the plants now in operation and of those in contemplation) that in 1912, when, unless there is fresh legislation the bounties will lapse, the Dominion will have expended in bounties a sum of nearly $26,000,000. The bounties more than meet the labour bills of the plants which are the beneficiaries of this legislation. Between 1900 and 1907 the Dominion Iron and Steel Company alone received five million dollars in bounties.

In addition to these subsidies, the iron and steel companies share with other manufacturers in receiving substantial protection, as may be seen at a glance on turning up Schedule "A" of the Canadian Tariff of Customs. (See page 86 of this book.) For instance, the general tariff on steel rails is $7.00 per ton, and on cast-iron pipe $8.00 per ton. Moreover, railways receiving government aid are obliged, as far as possible, to make use of rails made in Canada.

Nor is this all. The several provinces and municipalities in which the iron and steel plants are located, have in many cases, granted bonuses, free sites for the works and exemption from taxation. For instance, on the coal used in the works of the Dominion Iron and Steel Company, the government of Nova Scotia accepts a royalty less by one-half than that usually paid. The Province of Ontario in 1894 set aside $125,000 as an Iron Mining Fund and for five years (1894-1899) paid a bounty of $1.00 per ton of pig-metal product, raised, mined or smelted in Ontario. Whether or not the country has obtained a satisfactory equivalent for the great expenditure in this direction is a question which will receive different answers from different schools of political economists. The shareholders of several of the largest of the iron and steel companies have not as yet received any great return in dividends on their investments.

There are striking results to show, however, for the bounty and tariff legislation. In 1883 there was but one modern blast furnace in the Dominion; in 1885 there were three iron-smelting plants, with an aggregate annual capacity of 28,000 tons, but there was not a Bessemer converter nor an open hearth furnace in Canada. In 1906 there were 14 blast furnaces, with an aggregate annual capacity of 650,000 tons. In 1908 there are 17 blast furnaces (of which two are out of blast), and there will soon be one additional blast furnace in operation in Sault Ste. Marie (with a capacity of 400 tons a day), and another at Midland (with a capacity of 250 tons a day). In addition to the blast furnaces there are now in Canada three Bessemer converters for the manufacture of steel (one of which at Sydney, has a capacity of 650 tons a day), and between twenty and thirty open hearth furnaces, having an aggregate daily capacity of about 1,200 tons.

Most of the iron and steel plants in the Dominion are of comparatively recent date and have been equipped with modern labour-saving machinery. The plant of the Dominion Iron and Steel Company at Sydney, Cape Breton, is the largest iron and steel plant in any British colony. Moreover, "as regards labour-saving machinery, it will compare favourably with any of the newer plants in Pennsylvania and Ohio, and is, in this respect, far in advance of many English and Scotch plants." The ore for smelting is brought in the

company's chartered steamships to the works, and the coke is prepared in its own "by-product" coke ovens. It has now a rail mill, with an average output of 9,000 tons a month, and a rod mill "of the continuous type," which has sometimes produced 7,000 tons a month.

The Algoma Steel Company at Sault Ste. Marie makes only rails, sometimes turning out from its mill, a thousand tons a day. It has no coke ovens, using coke imported from the United States, but is so situated on the lake shore that the ore can be handled cheaply and easily, and one remarkable feature of this plant is its "large use of water-generated electrical power."

The Hamilton Iron and Steel Company has recently added largely to its equipment. It has now a "model plant," making billets and the smaller sizes of structural steel. It was the first company in Canada to erect open hearth furnaces.

Fourth in furnace capacity of the Canadian plants comes the Nova Scotia Steel and Coal Company. Its furnaces are at North Sydney, C.B., but it has a rolling mill and foundries at New Glasgow. This plant, which makes its own coke, "is nearer to coal than any of the other large Canadian iron and steel undertakings."

The Macdougall Furnaces at Drummondville and a small furnace at Radnor make charcoal iron from bog ore, but the owners of the latter furnace have also a modern plant at Midland, which uses American ore and American coke.

On the other hand, the Atikokan Iron Company of Port Arthur, Ontario, uses more Canadian ore than any other plant in Canada. The ore, brought sixty miles by rail from New Ontario, is treated in kilns to reduce the sulphur before it is taken to the blast furnace. The company makes its own coke in hundreds of "bee-hive" ovens. The manufacture of the iron is carried no further than the "pig" stage.

Ship plates and the larger sizes of structural steel are not made as yet in Canada, but at the secondary stage of the iron and steel industry a great and growing list of machines, tools, and other manufactures of steel are made, and the Province of Ontario has four well-equipped steel ship building yards—one at Collingwood, two at Toronto, and the fourth at Bridgeburg on the Niagara River.

To goods the produce or manufacture of any British or foreign country to which the benefits of such Intermediate Tariff shall have been extended in the manner hereinafter provided, when imported direct from such foreign country or from a British country.

GENERAL TARIFF

(3) The rates of Customs duties, if any, set forth in Column 3 "General Tariff" shall apply to all goods not entitled to admission under the Intermediate Tariff or under the British Preferential Tariff.

PROOF OF ORIGIN

(4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Custom House for goods admitted to entry under any of the Tariffs in Schedule A; and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin:

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties

otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(*a*) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(*b*) Goods of a class subject to excise duty in Canada;

(*c*) Sugar refined in the United Kingdom.

(*d*) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

DRAWBACK

10. On the materials set forth in Schedule "B" to this Act, there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA.

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorum*. except when otherwise specified.

THE KING'S CIVIL LIST.

Consequent upon the death of Her Majesty Queen Victoria, and the accession of His Majesty Edward VII., there was passed in the Parliamentary session of 1901 what is known as the Civil List Act, the Act by which is determined what charges shall be made on the consolidated fund for the maintenance of the King and his family.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal

of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the Accession of Edward VII, the income from the Crown Lands has very greatly increased.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV. and Queen Victoria, on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by Edward VII. when he came to the throne; and soon after Parliament assembled a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 4th of April, 1901, and its recommendations were embodied in an Act (1 Edward VII., c. 4), which was read a third time in the House of Commons on June 18th. By this Act the King's Civil List was fixed at a yearly sum of £470,000, assigned as follows:

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse	£110,000
II. Salaries of His Majesty's household and retired allowances	125,800
III. Expenses of His Majesty's household	193,000
IV. Works	20,000
V. Royal bounty, alms and special services	13,200
VI. Unappropriated	8,000
Total	£470,000

In the event of Her Majesty Queen Alexandra surviving the King it is enacted that there shall be paid to the Queen during her life an annuity of £70,000.

Another clause provides that there shall be paid to the Prince of Wales "during the joint lives of his present Majesty and of his said Royal Highness, an annuity of £20,000"; that "there shall be paid to the Princess of Wales during the continuance of her marriage with the Prince of Wales, for her sole and separate use, but without any power of anticipation, an annuity of £10,000; and that in the event of the Princess surviving the Prince there shall be paid to her during her life an annuity of £30,000."

In respect to His Majesty's daughters, Princess Louise (Duchess of Fife), Princess Victoria and Princess Maud (Princess Charles of Denmark), it is enacted that as a provision for them there shall be an annual allowance of £18,000 during their joint lives, "to be reduced at the death of each of the said princesses by £6,000."

The Civil List of Her late Majesty, Queen Victoria, as fixed by the Act of 1837, was £385,000, assigned as follows:

Her Majesty's Privy Purse	£ 60,000
Salaries of Household	131,260
Expenses of Household	172,500
Royal Bounty, etc.	13,200
Unappropriated	8,040

At the death of the Queen, the allowances to Her Majesty, to the Prince and the Princess of Wales, and in respect to the Prince of Wales's children, aggregated £471,000, The details of these payments were:

Her Majesty's Civil List	£385,000
The Prince of Wales (26 Vict., c. 1)	40,000
The Princess of Wales (26 Vict., c. 1)	10,000
Annuity, Prince of Wales's children (52-3 Vict., c. 35)	36,000

Until the death of the Empress Frederick of Germany, on August 5th, 1901, annuities amounting to £72,000 were payable to other members of the Royal Family. These annuities were not affected by the death of the Queen, but with the death of the Empress an annuity of £8,000 came to an end.

The annuities to the Royal Family after the resettlement at the accession of Edward VII. stand thus:

His Majesty (Civil List)	£470,000
Prince of Wales	20,000
Princess of Wales	10,000
Princesses Louise, Victoria and Maud	18,000
Princess Christian of Schleswig-Holstein	6,000
Princess Louise, Duchess of Argyll	6,000
Duke of Connaught	25,000
Princess Beatrice (of Battenburg)	6,000
Duchess of Mecklinburg-Strelitz	3,000
Duke of Cambridge	12,000
Duchess of Albany	6,000
Total	£582,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

THE BRITISH ARMY IN 1907-8.

THE NEW TERRITORIAL FORCE.

For the first six months of 1908 military interest in England centred in the organization of the militia, volunteers, and yeomanry into the new Territorial Force—"the Imperial army of the second line," which, to quote the words of His Majesty, King Edward VII, in addressing the Lords Lieutenants of England, Scotland and Wales at Buckingham Palace, on October 27th, 1907, "now lies within the shores of this kingdom." The Act of Parliament under which this great re-organization took place was summarized in the CANADIAN ALMANAC for 1908; and with this summary there were given particulars as to conditions of service in the Territorial Force. Brief histories of the militia, yeomanry and volunteers—the forces which have been merged into the new organization—will be found in earlier issues of the ALMANAC. The work of re-organization began on October 27th, when His Majesty convened a meeting of the Lords Lieutenants, at Buckingham Palace, to acquaint them with their duties under the Act of 1907, and to appeal to them to use their best efforts in the work of organizing the new force and keeping it in the highest state of efficiency.

KING EDWARD'S PATRIOTIC APPEAL.

"Your duties," His Majesty said in his patriotic address to the Lords Lieutenants, "will not be confined to raising in your respective counties the forces which the military authorities may require of you under the scheme which will hereafter be communicated to your associations. You will be required to hand over those forces to the military authorities in a fit condition to take the field, whether for training or war. It will also rest with you to provide and maintain rifle ranges, drill halls, and such accommodation as is necessary for the safe custody of arms and equipment. Funds will be placed at your disposal by the Army Council for these and similar purposes. I look to you, my lords and gentlemen, through the instrumentality of your associations, to protect the interests of reservists and old soldiers who have worthily served their country in all parts of the world; and I ask you to enlist the sympathies of the owners and cultivators of the soil to facilitate the provision of areas for the training of my troops. The important duties and responsibilities which were formerly yours are being restored to you; and when you return home to undertake this great and honorable task, I look to you to foster and direct by your precept and example the spirit of patriotism and voluntary effort which has for so long distinguished my loyal subjects. I hope that you will call to your aid all men who have at heart the interests of their country, and that a generous emulation will stimulate the efforts which you will make in your several counties. I have called you here to-day in order to express to you my confidence that you will employ your best endeavours to carry out the work with which you are entrusted. I have faith that the united effort of my people will enable you to achieve success."

HOW THE ORGANIZATION OF THE NEW FORCE PROCEEDED.

The work which His Majesty thus explained to the Lords Lieutenants of the English, Scotch and Welsh counties was begun immediately after this meeting at Buckingham Palace. The county associations described in the CANADIAN ALMANAC for 1908 were formed, their organization was gradually perfected, and on October 19th, 1908, Mr. Haldane, Secretary of State for War, who had carried the Act of 1907 through Parliament, announced the numerical results which had attended the work of re-organization, which had been going on from October 27th, 1907. The number of men who had joined the Territorial Force—passed into it from the militia, the yeomanry and the volunteers, or joined it as recruits—was, he said, 188,781. This number included non-commissioned officers and men; and of this total number, according to figures submitted to the House of Commons on July 8th, 113,500 had joined for a year. The officers who had joined numbered 8,326, including veterinary officers. On the same date, July 8th, 1908, an official return was published which showed by arms the number of units of the Territorial Force recognized by the Army Council, and also the percentage of strengths to establishments, by military districts, as the figures stood on July 1st.

BRANCHES OF THE SERVICE AND UNITS RAISED.

The number of units authorised under the Act of 1907 and the number of units which had been raised and recognized by the Army Council up to July 1st, 1908, were as follows:—

CONDITIONS OF SERVICE IN THE TERRITORIAL FORCE.

Each man who passed into the Territorial Force signed an attestation paper. The conditions and limitations of service are set out in this attestation paper in the form of five questions, which are given below:—

(*a*) Do you understand that you will be liable, if required, to attend the number of drills and fulfil the other conditions relating to training prescribed for the arm or branch of the service which you have elected to join, and be liable to be trained for not less than eight, or more than fifteen days altogether in every year, or if belonging to a mounted branch, for not less than eight, or more than eighteen days altogether in every year, as may be prescribed, and may for that purpose be called out, once or oftener, in every year.

(*b*) That if you, without leave or reasonable excuse, fail to attend the number of drills required to fulfil the conditions relating to training prescribed for your arm or branch of the service, you render yourself liable to a fine not exceeding £5?

(*c*) That when a proclamation has been issued in case of imminent national danger or great emergency calling out the first-class Army Reserve you will become liable to be embodied?

(*d*) That if your term of service expires when a proclamation ordering the Army Reserve to be called out on permanent service is in force, you may be required to prolong your service for a further period not exceeding twelve months?

(*e*) That you will be liable to serve in any place in the United Kingdom without further agreement, but not in any place outside the United Kingdom unless you voluntarily undertake to do so?

THE SECRETARY FOR WAR'S HOPES AND EXPECTATIONS.

Early in May, 1908, while the organization of the Territorial Force was in progress, and men from the old auxiliary forces were passing into the new force, Mr. Haldane, the Secretary for War, made a speech at Leicester, in which he expressed his hopes as to the ultimate strength and future position of the Imperial Army of the second line. "All over the country," he said, "the thing was catching on, because all classes without distinction of party, were laboriously setting themselves to the accomplishment of a national ideal. Why was it that they had been so keen to bring about this change? It was because there was a sense of unrest in the public mind, a doubt whether the nation was adequately protected, so far as the home defence was concerned." "By degrees," he continued, "you will have a state of things by which any enemy attempting to land in these islands will find 300,000 people able to repel them." Mr. Haldane further stated at this Leicester meeting that he was opposed to conscription and compulsory military service. He believed that in appealing to the manhood of the nation to do their duty in regard to defence they would respond as they did in taking up other public duties, and would show that they preferred the public interest to the narrow and selfish point of view of the individual.

THE ARMY ESTIMATES FOR 1908-9.

The Army Estimates, as published on February 25th, contained figures as to the expenditure on the army in the year 1908-9, and also figures setting out the strength of the military forces to be maintained at the expense of the British Government during the current financial year. The estimated cost of the army is £27,459,000, as compared with £27,760,000, the expenditure for the year 1907-8. The net decrease was thus £301,000.

DIFFICULT TO RETRENCH IN ARMY EXPENDITURES.

In a memorandum prepared by Mr. Haldane, which accompanied the estimates, the Secretary for War explained how it was that a larger curtailment of expense on the army—a larger saving than £301,000—had not been possible. "Our army," wrote Mr. Haldane, "is a machine the parts of which are interdependent. We cannot suddenly take from it a bit here or a bit there without diminishing the strength of the whole out of all proportion to the pecuniary saving effected, and without running the risk of throwing additional burdens on countries such as India, which we have consistently striven in the past to help. It is on these grounds that the policy of the Government has been to proceed cautiously, if steadily, in the endeavor to reduce cost. Violent efforts would not only produce reaction but would prove disappointing in their results."

THE TWO-FOLD PURPOSE OF THE TERRITORIAL FORCE.

There were some interesting explanatory remarks in the memorandum with regard to the Territorial Force, the organization of which has been described in the preceding pages of this article. "The two-fold purpose of the Territorial Force," wrote Mr. Haldane, "is in the first place to compel any hostile power which may attempt invasion to send a force so large that its transports could not evade our own fleets and flotillas, and in the second place to free the Regular Army from the necessity of remaining in these islands to fulfil the function of home defence. The Territorial Force is thus designed to enable both the Regular Army and the Navy to operate with greater freedom at a distance from these shores in places where the defence of British interests may require their presence, and to facilitate the co-operation of both services as the lobes of a single brain." Regarding the relations between the first and second lines, Mr. Haldane was hopeful that "assimilation in organization in the systems of command and in training, as between the first and second lines, should ultimately produce such a feeling of fellowship and good-will between the professional and the citizen forces in this country as will tend more and more to combine both together into one harmonious whole."

THE POLICY OF CONCENTRATION.

British military forces—that is, forces that are maintained by the taxpayers in England, Scotland and Ireland—have already been withdrawn from Canada and their place at Halifax, Quebec and other garrisons taken by troops raised and maintained by the Dominion Government. These withdrawals of British troops from Canada were part of the policy of concentrating British troops; and Mr. Haldane stated in his memorandum that this policy of concentration is being continued. "With this object in view," he wrote, "it has been decided to bring home from colonial stations during the coming financial year one cavalry regiment and four battalions of infantry. This arrangement has the full assent of the Secretary for the Colonies, who is of

opinion that the time has arrived when the interests of South Africa admit of some reduction of the garrison. Owing to the late date at which this decision was arrived at, and to the date of the moves being still uncertain, the estimates of 1908-9 are based upon the existing distribution, but I expect to be able in the course of the coming financial year to save enough money by the withdrawal to pay the transport charges."

The New Special Reserve.

What has come to be known as the Special Army Reserve was organized in 1908. It takes recruits for the Royal Field Artillery, the Royal Engineers, and the Infantry of the Line, and in Ireland for two units of Garrison Artillery. Recruits for these arms are enlisted to train on enlistment for six months.

The age for enlistment is from 17 to 30 years of age. The pay varies, according to the arm of the service and the age of the recruit, from 7s. a week in the case of the Infantry to 8s. 5½d. in the Royal Artillery if the recruit is under 18 years; and if the recruit is 18 years of age on enlistment the pay is from 8s. 9d. a week in the Infantry to 10s. 2½d. in the Royal Artillery. On completing the period of drill on enlistment the recruit receives a bounty of 30s. Afterwards, he receives, in addition to his pay, four bounties in each year of £1 each. Enlistments are for six years; and a man who joins this Reserve serves six months in the first year, and from 15 to 21 days in each subsequent year. On the 1st of October, 1908, the strength of the new Reserve—all arms—was 61,291.

Civil Occupations of Men who Offer for the Army.

The class of men who are of the rank and file of the army may be judged from the accompanying table which gives the occupations of the men who offered as recruits in the year 1907-8—the latest year for which these details as to recruiting are available. The first column gives the occupation of the men offering for service; the second the number of men who offered from each occupation; and the third the number rejected, because they failed to pass the medical examination.

THE BRITISH NAVY IN 1908-9.

The Naval Policy of the Asquith Government.

In view of the fact that Mr. Asquith succeeded the late Sir Henry Campbell-Bannerman as Premier, on the 8th of April, 1908, the most significant event in the political history of the British Navy in the year 1908-9 was the statement with regard to naval policy which Mr. Asquith, then Chancellor of the Exchequer, made in the House of Commons on March 2nd. It was made in a debate on a motion proposed by Mr. Murray Macdonald, "That in view of the continued friendly relations with foreign powers, announced in the gracious Speech from the Throne, this House trusts that further reductions may be made on expenditure on armaments, and effect be given to the policy of retrenchment and reform to which the Government is pledged." To this motion Mr. Asquith moved an amendment which when adopted by the House—320 for and 73 against—made the motion read, "That in view of the continued friendly relations with foreign powers announced in the gracious Speech from the Throne, this House will support His Majesty's Ministers in such economies of naval and military expenditure as are consistent with the adequate defence of His Majesty's Dominions."

"The motion," said Mr. Asquith, in the most significant part of his speech, "refers to the growth in recent years of friendly agreements and intimacies between ourselves and other Powers. In past days there were, to speak of the Navy, some combinations which I won't particularize which used to trouble the minds and colour the policy of statesmen, which to say the very least, have become in the highest degree improbable, and which we may hope in a few years will have passed into the region of the inconceivable. Even where, as in the case of Germany, there is no express compact, we have the best reason for hoping and believing that the two peoples are every year advancing nearer and nearer to complete mutual understanding. We on our side—and I say it advisedly—have no reason to witness with suspicion or apprehension any individual expansion there or elsewhere, which simply corresponds with the economical and defensive needs of a country and of a rapidly growing population becoming more and more dependent both for food and for raw materials upon over-sea sources of supply. On the other hand, I say that our shipbuilding policy and the whole of our naval policy is a purely defensive one. The Government has every intention of maintaining the standard of the British Navy which has hitherto been deemed necessary for the safeguarding of our national and Imperial interests. What does that mean? Our naval position is at this moment, as I believe and the Government believe, one of unassailable supremacy, and such it must remain. The command of the sea, however important and however desirable it may be to other Powers, is to us a matter of life or death. We must safeguard it, not against imaginary dangers, not against bogies, spectres, and ghosts, but against all contingencies that can reasonably enter into the calculations of statesmen. For that purpose we believe it to be our duty to maintain our standard of relative naval strength. I do not think the historical origin of the two-Power standard matters very much. Combinations of Powers, relationships between Powers, necessarily shift from time to time. The standard which is necessary for this country

is one which will give us complete command of the sea against any reasonably possible combinations of forces. I think it is in the highest degree undesirable in public to speculate as to what groupings there may be in the future, but I believe I can make this statement in the House and in the face of Europe—there is not one of the Great Powers of the world at this moment which looks with animosity, with jealousy, or with misgiving upon the navy of Great Britain being maintained at what we call the two-Power standard."

GREAT BRITAIN AND THE LEAD IN NAVAL CONSTRUCTION.

In addressing a public meeting in Leeds on October 10th, Mr. Asquith recalled this speech in the House of Commons of March 2nd, and amplified it by some references to the policy of his Government as regards shipbuilding. "For the purpose of carrying out the policy so defined," said the Premier at Leeds, "it is not necessary, in the opinion of the Government, nor is it desirable, for us to lay down years in advance a shipbuilding programme. And I will tell you why. We here in Great Britain start with a large and easily measurable margin of superior strength, and by keeping our attention, as we do, not upon paper programmes, but on what is being done in other quarters we can always, with the resources which we possess, maintain that margin intact. We not only do not want to take the lead, we want to do everything in our power to prevent a new spirit in competitive shipbuilding. But we quite recognise that in a matter of this kind every Power must be the judge of what its own interests appear to it to require. It is not for us to dictate, neither—let me add—is it for us to supplicate. Every power in the world knows that our measure of what we require in naval strength is a measure of security and nothing else. Beyond that we need not and ought not to go; up to that we should be false to our duty as trustees of the Empire if we did not always keep."

NEW SHIPS AND SHIPS IN BUILDING.

The Naval Estimates for 1908-9 were laid on the table of the House of Commons on February 25th. According to the Estimates the total expenditure for 1908-9 will be £32,319,500—£900,000 in excess of the Estimates for 1907-8. On new tonnage during 1908-9 £7,545,202 will be spent. Last year the sum so expended was £8,100,000. Of the £7,545,202, £6,795,202 will be spent on the continuation of ships already under construction, and £750,000 in beginning work on ships of the new programme. The programme is :—

One battleship (improved Dreadnought class).
One large armoured cruiser.
Six fast protected cruisers.
Sixteen torpedo boat destroyers.
A number of submarine boats, estimated to cost £500,000 in all.

Between April 1st, 1907, and March 31st, 1908, the vessels named below were completed and became available for service with the fleets :—

One battleship (Lord Nelson).
Three armoured cruisers (Warrior, Shannon and Minotaur).
Three destroyers (Cossack, Mohawk and Tartar).
Ten torpedo boats (of the coastal destroyer type).
Eight submarines.
One repair ship (Cyclops).
New Royal yacht, Alexandra.

On April 1, 1908, there were under construction seven battleships, four armoured cruisers, one unarmoured cruiser, ten destroyers, twenty torpedo boats of the coastal destroyer type, and eighteen submarines.

The Naval Estimates called for a vote of 128,000 men from the House of Commons—exactly the same number as for 1907-8.

WAR PLANS AT THE ADMIRALTY.

Lord Tweedmouth, who in March was the First Lord of the Admiralty, in the memorandum that accompanied the estimates insisted that the rapidity and certainty with which the nucleus crew ships could be fully manned had been illustrated signally by the exercise of mobilisation, earlier in the year, at Devonport, Portsmouth and Chatham. "It had been alleged," continued Lord Tweedmouth, "that the Admiralty have no war plans properly worked out, nor strategical operations thoroughly elaborated. This was a baseless allegation. Such plans are in the possession of the Admiralty in abundant number to meet all possible emergencies. The details of these plans cannot, of course, be made public, for their successful operation in actual warfare must largely depend upon their secrecy."

The Navy Yards in Canada.

The Dominion of Canada during the year 1906-7 took over the property formerly belonging to the Imperial Government at Halifax and Esquimault, in accordance with the agreement arrived at between the Home and the Dominion Government, when the naval squadrons were re-distributed in 1904. The more important conditions under which the Dominion Government entered on its trust are :—

(1) The care and maintenance of the buildings, plant and machinery to be undertaken by the Dominion Government and to be regulated by similar instructions to those in force at the time of the closing of the yards. (2) The yards to be open to inspection by the Commanders-in-Chief of the North American, West Indies, and particular service squadrons when desired. (3) The yards to be available for the repair of his Majesty's ships at any time so far as their facilities admit. (4) The places where the navy coal has been hitherto stored to be kept free for such stocks as may be required from time to time for his Majesty's navy, access to the wharves to be available, and the use of all appliances for coaling his Majesty's ships to be permitted. (5) The Admiralty to have power to take over the full management and charge of the establishment in the event of war or any other emergency, of which the Admiralty shall be the sole judges. (6) The right for the Admiralty to revert into permanent occupation of the establishments whenever they consider that the interests of the navy render such course necessary, without incurring any liability towards the Dominion Government.

Distribution of the British Fleets.

The distribution of the Navy forces of Great Britain and the make-up of the fleets as they stood on March 5th, 1907, was described in detail in the Canadian Almanac for 1908, and in the issue for the preceding year—1907—will be found particulars as to pay and conditions of service in the Navy.

THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact, it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and, in addition, there is a complete staff of professors for the civil subjects which form such a large proportion of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete, and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the system.

In addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

Seven commissions in His Majesty's regular army are annually awarded as prizes to the cadets.

Three Commissions in the Permanent Force will be given annually, should vacancies exist, to the graduating class, viz. :—Every year one in the Infantry ; and each alternate year :

One in the Engineers and one in the Horse Artillery.

One in the Cavalry or Mounted Rifles and one in the Garrison Artillery.

Further, every three years a Commission in the Ordnance Corps will be given to the graduating class.

Three 2nd class clerkships, or appointments with equivalent pay, will be offered annually to the graduating class, such appointments to be in the following Departments, viz. :—Public Works, Railways and Canals, Inland Revenue, Agriculture and Interior.

The length of the course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from $750 to $800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination, or for any other information, application should be made as soon as possible to the Secretary of the Militia Council, Ottawa, Ont. ; or to the Commandant, Royal Military College, Kingston, Ont.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1908.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won twice by a Canadian: Pte. T. H. Hayhurst, 13th Regiment, Hamilton, Ont., in 1895, and Pte. J. S. Perry, 6th Regiment, D. C. O. R., Vancouver, B.C., in 1904. Many other important prizes have also been captured by our countrymen. The Kolopore Cup, contested for by the Mother Country and the Colonies was won eight times by the Canadians: in 1872, '75, '81, '84, '89, '96, 1905, and 1906. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:—

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into three series, as follows:—

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations. The entrance fee per team is $10. Fees for additional teams from the same organization, $5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

THE PALMA TROPHY INTERNATIONAL RIFLE-SHOOTING CONTEST.

(Last Contest: 1907.)

This trophy of the United States was first put up to competition to the riflemen of the world, at Creedmore, Long Island, in September, 1876, and was incidental to the big Centennial Exhibition. It was then won by a team of the United States, against teams representing Ireland, Scotland, Australia and Canada respectively. As a souvenir of the occasion each member of the competing teams was presented with a handsome medal. In 1877 it was again won by the United States against Great Britain. It was only in 1901 that a Canadian team again competed for it, and this time won the trophy. On the 13th of Sept., 1902, immediately after the meeting of the Dominion of Canada Rifle Association, the competition took place at Ottawa, by teams from Great Britain, Canada and the United States, and the prize carried off by Great Britain. The ranges are 800, 900 and 1,000 yds., 15 shots at each range; teams composed of eight men each. The contest for this trophy was held at Bisley, England, on the 11th July, 1903, and won by the United States, but the cup was returned to the National Rifle Association of Great Britain, as barrels of rifles used by U.S. team had not been authenticated by latter Government. The next competition took place at Rockliffe Rifle Range, Ottawa, on 7th Sept., 1907, with the following result:

	United States.	Canada.	Australia.	Great Britain.
800 yds.....	590	566	570	551
900 yds.....	573	554	553	526
1000 yds.....	549	551	530	503
Totals....	1712	1671	1653	1580

The teams finished in the above order, and the United States representatives brought back the prize; it was not contested for during the year 1908.

POSTAL INFORMATION.

For List of Officials of Post Office Department, see page 304

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—The face of a Private Post Card may be used for advertisements, illustrations, etc., provided that a clear space of at least ¼ inch is left along each of the four sides of the postage stamp, and a clear space 3½ inches long and 1½ inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards for delivery in Canada, U.S. and Mexico, must not exceed a size of 6 inches in length by 3⅝ inches in width, nor be less than 4 inches in length by 2¾ inches in width. Cards for other countries must not exceed 5½ inches in length by 3½ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters.

Pictorial Private Post Cards which have communications on address side.—Cards which have the back covered by a picture, and one-half of the front to the left of the address space reserved for written communications, are admitted as post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom, Egypt, and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières and Quebec; in New Brunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax; in Manitoba—Winnipeg and Brandon; in Alberta—Calgary and Edmonton; in British Columbia—Victoria and Vancouver; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Insurance of Registered Letters.

Registered letters posted at and addressed to any P.O. within the Dominion of Canada may be insured against loss for amounts not exceeding $25. The insurance fee as well as the ordinary postage and the registration fee must be prepaid in postage stamps on all insured registered letters. The insurance fees and the corresponding limits of compensation are as follows:—

(unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for foreign post, 4 lbs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth; foreign: two feet in length, by one foot in width or depth.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries by Book Post:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass)

official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter :—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

The following articles are subject to the rate of 2 cents for the first 4 ozs. or fraction thereof, and one cent for each additional 4 ozs. :—Seeds, cuttings (but not cut flowers), roots, bedding plants, scions or grafts.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 30 inches in length or 12 inches in width or depth, nor may the combined length and girth of any packet exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on 3rd and 4th class matter, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

Newspapers and Periodicals.

The general postage rate on newspapers and periodicals *published in Canada* not less frequently than once a month, and addressed to regular subscribers in Canada, Mexico, the United Kingdom, the Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands, Zanzibar, and Newfoundland, and to newsdealers in Canada, is fixed by law at ½ cent per pound. The following exception, however, is to be noted : Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion or Mexico, and on newspapers and periodicals published in Canada and posted for delivery in the United Kingdom, or the British Possessions mentioned above, other than those addressed to regular subscribers or news agents from office of publication, the rate is *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

British and foreign publications may be posted by newsdealers in Canada to subscribers in Canada at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Newfoundland, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands or Zanzibar, they must be prepaid the following rates by Postage Stamp :—

If posted singly and weighing less than 1 oz., half a cent each.

If weighing 1 oz. or over, one cent per four oz. or fraction of four oz.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 3 lbs. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations :

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

United Kingdom, United States and Foreign Countries.

Patterns and samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to any country other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Fourth Class Matter.

Postage rate 1 cent per ounce or fraction thereof, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, nor entitled to pass as 3rd class matter, may pass as 4th class when addressed to any destination within the Dominion or the United States. Fourth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 lbs. in weight. The limit of size is 30 inches in length by 1 foot in width or depth, but the combined length and girth of any packet must in no case exceed 6 feet. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 4th class matter is 5 cents in addition to postage.

A packet of 4th class matter may contain invoices and accounts, provided they relate exclusively to the contents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of 4th class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and the sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of 4th class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 2 feet in length or 1 foot in width or depth, unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs.

THE BRITISH GOVERNMENT.

THE ASQUITH ADMINISTRATION—APRIL, 1908.

Owing to the serious illness which terminated in his death on April 22nd, Sir Henry Campbell-Bannerman resigned the office of Premier on April 6th, 1908. Two days later, April 8th, Mr. Asquith accepted from King Edward, who was then at Biarritz, the appointment of Prime Minister, and at once proceeded to reorganize the Cabinet. Several changes occurred in the Ministry later in the year, due chiefly to the resignation of the Marquis of Ripon, Lord Privy Seal, and Lord Tweedmouth, Lord President of the Council. THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. D. Lloyd-George.
First Lord of the Treasury—Rt. Hon. Herbert Asquith.
Financial Secretary to the Treasury—Mr. C. E. Hobhouse
Patronage Secretary to the Treasury—Mr. J. A. Pease.
Junior Lords of the Treasury—Mr. Herbert Lewis, Capt. Cecil Norton, Mr. J. H. Whitley.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary to the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Sir Edward Grey.
Under Secretary—Mr. Thomas McKinnon Wood.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Earl of Crewe.
Under Secretary—Colonel Seely.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Viscount Morley.
Under Secretary—Mr. T. R. Buchanan.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Rt. Hon. Herbert Gladstone.
Under Secretary—Mr. Herbert Samuel.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Rt. Hon. R. B. Haldane, K.C.
Under Secretary—Lord Lucas.
Financial Secretary to the War Office—Mr. F. D. Acland.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Reginald McKenna.
Secretary to the Admiralty—Mr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF EDUCATION.

President—Rt. Hon. Walter Runciman.
Secretary—Mr. C. P. Trevelyan.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE LOCAL GOVERNMENT BOARD.

President of the Local Government Board—Rt. Hon. John Burns.
Parliamentary Secretary to the Local Government Board—Mr. C. F. G. Masterman.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Winston Churchill.
Parliamentary Secretary to the Board of Trade—Mr. H. E. Kearley.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. Sydney Buxton.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Earl Carrington.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Rt. Hon. Lewis Harcourt.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Viscount Althorp.

Comptroller of the Household—Sir Edward Strachey.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Chief Secretary for Ireland—Rt. Hon. Augustine Birrell.

Secretary for Scotland—Rt. Hon. John Sinclair.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was unanimously re-elected on the opening of the new parliament. Mr. Alfred Emmott became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert remains Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. On the eve of the retirement of the Balfour Government—5th December, 1905—pensions of £2,000 were being paid to Lord Cross (since 1887), and to Lord George Hamilton (1892). These are first-class pensions. Second-class pensions of £1,500 a year were at that time being paid to Sir Michael Hicks-Beach, Mr. Henry Chaplin, Sir John Gorst, and Lord Balfour of Burleigh. As there can be only four pensioners in any of the three classes this class was full when the Balfour Administration was coming to an end; but Sir Michael Hicks-Beach was at this juncture made a peer. He became Lord St. Aldwyn and resigned his pension, which by warrant dated December 5th, was bestowed on Mr. Gerald Balfour, who in Mr. Arthur Balfour's Government had been President of the Local Government Board.

THE BRITISH PARLIAMENT.

The Balfour Government resigned on the 5th of December, 1905. Sir Henry Campbell-Bannerman, who had been leader of the Liberal Opposition in the House of Commons since February, 1899, formed a Liberal Administration, and the General Election took place in January, 1906. The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England		465
London	61	
Boroughs	165	
Counties	234	
Universities	5	
Wales		30
Boroughs	11	
Counties	19	
Scotland		72

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be claimed every year. A recent decision in the law courts, Kent *v.* Tittal, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the

same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

Members of the House of Commons receive neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

At the general election in January, 1906, the questions at issue were Fiscal Reform (Mr. Chamberlain's proposal to return to Protection); Chinese Labour on the Rand, which arose on the Balfour-Milner ordinance of 1904; and Elementary Education, or rather that aspect of this subject which affected the relationship of the Established Church and the Roman Catholic Church to public elementary schools which are maintained entirely by local and Imperial taxation.

On August 11th, 1905—that is, on the last day of the last session of the Parliament elected in September and October, 1900—the political constitution of the House of Commons stood as follows:—

Conservatives	312
Liberal Unionists	58
Liberals	217
Irish Nationalists	82
Speaker	1
Total	670
Unionist Majority	71

After the General Election of 1900, the Salisbury Administration had a majority over Liberals and Irish Nationalists of 134.

As the result of the General Election in January, 1906, the Campbell-Bannerman Government was continued in office, and began the Parliamentary session with a majority of 241 over the combined vote of the Conservatives, Liberal Unionists, and Irish Nationalist Members.

Mr. Speaker Lowther was of the Tory Party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the new Parliament. Counting the Speaker as still of the Tory party, the political constitution of the House of Commons at the beginning of the session of 1906 was made up thus:—

Liberals	372
Labour	57
Conservatives	130
Liberal-Unionists	28
Irish Nationalists	83
Total	670

Not since the beginnings of modern Liberalism at the time of the American Revolution has the Liberal party been supported by so large a majority in the House of Commons. When Parliament was prorogued on August 28, 1907, as a result of bye-elections since the General Election of 1906, the numbers stood

Liberals	368
Labor	59
Conservatives	132
Liberal Unionists	28
Nationalists	83
Total	670

The Labour Members are divided into three groups:—(1) Fifteen miners' representatives, (2) thirteen Liberal Labour Members, and (3) thirty-one members of the Independent Labour party. Members of the first group (the miners' representatives) have been of the House of Commons since 1868, when the Right Honourable Thomas Burt and the late Mr. Alexander Macdonald (both of them miners' trade union officials) were returned.

The second group is composed of Liberals who are closely associated with the Labour movement; while the third group represents the Independent Labour Party, which was organized in 1901, and was represented in the last House of Commons by Mr. Keir Hardie, the leader of the movement, and three other members. The miners' members and the Liberal-Labour members sit on the Government Benches, answer to the Government whips, and act generally with the Government.

Mr. Keir Hardie and his colleagues sit with the Nationalist Members on the Opposition side of the House of Commons. This group has its own whips, and, while usually voting with the Government, its members hold themselves at arm's length from it, and keep aloof from Liberal organizations in and out of Parliament. At bye-elections since Jan. 1906, this group has opposed Liberal candidates in working-class constituencies. The first loss sustained by the Liberals was at Cockermouth on Aug. 3, 1906, and was due to the nomination of a third candidate by the Labor Party. At bye-elections at Jarrow (July 4) and in the Colne Valley Division of Yorkshire (July 18) seats formerly held by Liberals were captured by Independent Labor men from official Liberal candidates. It was these gains that brought the number of Independent Labor Members up to 31. This new group advocates old age pensions, adult suffrage, and the establishment of an eight-hours' day by legislative enactment, and, broadly speaking, it is representative of the Socialist movement in England in its more immediately practical forms.

THE HOUSE OF LORDS.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election on the 30th of January, 1906, at which the Duke of Montrose (Lord Clerk) presided, the following Peers were chosen:—

Earl of Mar.	Viscount Falkland.
Earl of Morton.	Baron Saltoun.
Earl of Mar and Kellie	Baron Sinclair.
Earl of Haddington.	Baron Torpichen.
Earl of Lauderdale.	Baron Balfour of Burleigh.
Earl of Leven and Melville.	Baron Belhaven and Stenton.
Earl of Carnwarth.	Baron Borthwick.
Earl of Northesk.	
Earl of Dundonald.	

All these Peers are Conservatives, and the only change was the substitution of Lord Borthwick for Lord Forbes, who was of the last Parliament, but declined re-election. The Irish Peers, who number twenty-eight, are elected for life. They are all Conservatives.*

At the time the Balfour Government went out of office in December, 1905, there were 612 Peers. Of these, 537 were hereditary Peers of the United Kingdom, 5 were life Peers (the law lords), 26 were Archbishops and Bishops, 16 were Scotch representative Peers, and 28 were Irish representative Peers. On the formation of the Campbell-Bannerman Government Sir R. T. Reid went up to the House of Lords as Lord Chancellor, with the title of Baron Loreburn. In January and February, 1906, there were other creations of Peers; and on the 28th of June, at the anniversary of the King's Birthday, six new Peers were created. In all since the accession to office in 1905 of the Campbell-Bannerman Government, 20 new Peers have been created, all of whom are Liberals. Their creation brings up the number of Liberal Peers to 94.

*In January, 1908, Lord Curzon was elected a representative Irish Peer in the place of the late Lord Boyne.

BRITISH IMPORT DUTIES, 1906-7.

The most important feature of Mr. Asquith's Budget of May 7th, 1908, was the scheme for old age pensions which accompanied it. As the pensions were not to begin until January 1st, 1909, Mr. Asquith estimated that £1,200,000 would be sufficient to cover that charge. The estimated surplus for the year 1908-9, after providing for the pension charge, was £3,700,000, and the relief to the tax-payer in Mr. Asquith's Budget took the form of the remission of ¼d. a pound—rather more than half the tax—on sugar. The income tax was left untouched. Import duties are as follows:—

PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

Validity and Infringements of Patents Investigated. Assignments, &c., drawn. Searches made.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding $100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding $200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, $60.00; partial fee for 12 years, $40.00; partial fee for 6 years, $20.00; for further term of 12 years, $40.00; for further term of 6 years, $20.00; on filing caveat, $5.00; on registering assignment patent, $2.00; for copy of patent, with specification, $4.00.

The disbursements for filing an application in Great Britain are $25.00; France, $20.00; Germany, $5.00, and $7.50 before issuing patent; Australia, $20; Russia, $75.00; British India, $20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are $5.00 on filing of the application, $10.00 on allowance of same and $25.00 for preparation of the sealing of patent; New Zealand, $20.00; Mexico, $75.00; Natal, $50.00; Japan, $75.00; Jamaica, $150.00.

SOME FACTS ABOUT CANADA.

The earliest official records show that John and Sebastian Cabot, sailing under commission from King Henry VII of England, landed in 1497 on that part of the present Dominion of Canada known as Cape Breton in Nova Scotia.

Gaspar Cortereal discovered and named the Labrador coast in 1500.

Jacques Cartier, of St. Malo, France, acting under the authority and patronage of Francis 1 of France, discovered, in 1534, those portions of the Dominion of Canada now called New Brunswick, Prince Edward Island, and Quebec, and on his return to France presented the King with the first official record there is of the existence of these regions.

Captain Cook in 1778 gave the first authentic record of the discovery of Vancouver Island and the Pacific Ocean coast of the present Dominion.

Frobisher, Hudson, Parry, Franklin, Richardson, Back, Mackenzie, Simpson, Vancouver and others, between 1576 and 1847 explored and named the north and north-west coasts of the Dominion.

Colonization was practically begun in 1605-8. In 1605 Baron de Poutrincourt established Port Royal (now Annapolis Royal, in Nova Scotia), the first actual settlement by Europeans. In 1608 Champlain founded Quebec.

THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto :—

(*a*) Name.—The Imperial Service Order.

(*b*) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.

(*c*) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.

(*d*) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.

(*e*) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.

(*f*) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.

(*g*) Decoration to be worn on left breast suspended by a ribbon one inch wide.

(*h*) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.

(*i*) Companions have the privilege of adding the letters "I.S.O." after their names.

(*j*) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

The following Canadians have been made Companions of that Order :—

THE LAW OF INTESTATES ESTATES.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed $1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

Wife only	Net value of estate not exceeding $1,000 to wife absolutely. Excess over $1,000, half to wife; and half to next of kin, in equal degree to intestate, or their legal representatives, or if no next of kin, to the Crown.

THE SUCCESSION DUTY ACT.

R.S.O. (1897), CHAP. 24 AND AMENDMENTS THERETO.

This Act applies to the Estates of all persons dying after 1st July, 1892.

The word "property" includes real and personal property of every description and every estate or interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs or personal representatives.

The word "child" shall be deemed to include any lawful child of the deceased or any lineal descendant of such child or any person or persons adopted before the age of twelve years by the deceased as his child or children or any infant to whom the deceased for not less than ten years immediately prior to his death stood in the acknowledged relationship of a parent or any lineal descendant of such adopted child as aforesaid born in lawful wedlock.

The phrase "aggregate value" means the value of the property after the debts, encumbrances or other allowances (set out in the act) are deducted therefrom and shall include property situate outside of the Province as well as within.

"Dutiable value" means the value of the property after the debts, encumbrances or other allowances are deducted therefrom.

In determining the dutiable value of any property the value shall be taken as at the date of the death of the deceased, and allowance shall be made for reasonable funeral expenses and for his debts and encumbrances, but an allowance shall not be made (*a*) for debts incurred by the deceased or encumbrances created by a disposition made by the deceased unless such debts or encumbrances were incurred or created *bona fide* for full consideration in money or money's worth wholly for the deceased's own use and benefit and take effect out of his interest. (*b*) For any debt in respect whereof there is a right to reimbursement from any other estate or person. (*c*) More than once for the same debt or encumbrance charged upon different portions of the estate.

No duty shall be leviable:—

(1) On any estate the aggregate value of which does not exceed $10,000. (2) On property devised or bequeathed for religious, charitable or educational purposes to be carried on by a corporation or persons domiciled within the Province of Ontario. (3) On property passing under a will intestacy or otherwise to or for the use of a father, mother, husband, wife, child, daughter-in-law or son-in-law of the deceased, where the aggregate value of the property as defined by this Act passing to the persons mentioned does not exceed $50,000.

Save as aforesaid the following property shall be subject to a succession duty:—

(*a*) All property situate within this Province and any interest therein or income therefrom, whether the deceased person owning or entitled thereto was domiciled in Ontario at the time of his death or was domiciled elsewhere, and all moveable or personal property locally situate out of this Province and any interest therein where the owner was domiciled in this Province at the time of his death, whether such property passes by will or intestacy.

(*b*) All property situate as aforesaid or any interest therein or income therefrom, which shall be voluntarily transferred by deed, grant, bargain, sale or gift made in contemplation of the death of the grantor, bargainor, vendor or donor, or made or intended to take effect in possession or enjoyment after such death to any person in trust or otherwise or by reason whereof any person shall become beneficially entitled in possession or expectancy to any property or the income thereof.

(*c*) Any property taken as a *donatio mortis causa* made by any person dying, on or after the 7th April, 1896, or taken under a disposition made by any person so dying purporting to operate as an immediate gift, during life, whether by transfer, delivery, declaration of trust, or otherwise which shall not have been *bona fide* made twelve months before death of deceased.

(*d*) Any property which a person dying on or after the 7th day of April, 1896, having been absolutely entitled thereto has caused or may cause to be transferred to or vested in himself, and any other person jointly whether by disposition or otherwise so that the beneficial interest therein or in some part thereof passes or accrues by survivorship on his death to such other person, including also any purchase or investment effected by the person who was absolutely entitled to the property either by himself alone or in concert or by arrangement with any other person.

(*e*) Any property passing under any past or future settlement including any trust whether in writing or otherwise, and whether for valuable consideration or not made by any person dying on or after 7th April, 1896, by deed or other instrument not taking effect as a will whereby any interest in such property or the proceeds thereof for life or any other period is reserved to the settlor, or whereby the settlor may have reserved the right to exercise any power to restore to himself the absolute interest in such property.

(*f*) Any annuity or other interest purchased or provided by any person dying on or after 7th April, 1896, either by himself alone or in concert with any other person to the extent of the beneficial interest arising by survivorship or otherwise on the death of the deceased.

(*g*) Any interest in dower or by the courtesy in any land of the person so dying to which the wife or husband of the deceased becomes entitled on the decease of such person.

Where the aggregate value of the deceased's property exceeds $50,000, and passes in manner aforesaid either in whole or in part to or for the benefit of the father, mother, husband, wife, child, son-in-law or daughter-in-law of the deceased, the same or so much thereof as so passes (as the case may be) shall be subject to a duty at the rate and on the scale as follows:—

(*a*) Where the said aggregate value exceeds $50,000 and does not exceed $75,000, 1 per cent.

(*b*) Exceeds $75,000 and does not exceed $100,000, 2 per cent.

(*c*) Exceeds $100,000 and does not exceed $150,000, 3 per cent.

(*d*) Exceeds $150,000 and does not exceed $200,000, 4 per cent.

(*e*) Exceeds $200,000, 5 per cent.

Provided where the value of any dutiable property exceeds $100,000 and the amount passing in manner aforesaid to any one person exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the foregoing paragraph mentioned as follows:—

(*a*) Where the whole amount so passing to one person exceeds $100,000 and does not exceed $200,000, 1 per cent.
(*b*) Exceeds $200,000 and does not exceed $400,000, 1½ per cent.
(*c*) Exceeds $400,000 and does not exceed $600,000, 2 per cent.
(*d*) Exceeds $600,000 and does not exceed $800,000, 2½ per cent.
(*e*) Exceeds $800,000, 3 per cent.

Where the aggregate value of the property of the deceased exceeds $10,000, so much thereof as passes to or for the benefit of the grandfather or grandmother or any other lineal ancestor of the deceased, except the father and mother, or to any brother or sister of the deceased, or to any descendant of such brother or sister, or to a brother or sister of the father or mother of the deceased, or to any descendant of such last mentioned brother or sister shall be subject to a duty of $5 for every $100 of the value.

Provided that where the value of any dutiable property exceeds $50,000, and the amount passing in manner aforesaid to any one person mentioned in the next preceding subsection, except the father and mother, exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

(*a*) Where the whole amount so passing to one person exceeds $50,000 and does not exceed $100,000, 1 per cent.
(*b*) Exceeds $100,000 and does not exceed $150,000, 1½ per cent.
(*c*) Exceeds $150,000 and does not exceed $200,000, 2 per cent.
(*d*) Exceeds $200,000 and does not exceed $250,000, 2½ per cent.
(*e*) Exceeds $250,000 and does not exceed $300,000, 3 per cent.
(*f*) Exceeds $300,000 and does not exceed $350,000, 3½ per cent.
(*g*) Exceeds $350,000 and does not exceed $400,000, 4 per cent.
(*h*) Exceeds $400,000 and does not exceed $450,000, 4½ per cent.
(*i*) Exceeds $450,000, 5 per cent.

Where the aggregate value of the property of the deceased exceeds $10,000, and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above described, or to or for the benefit of any stranger in blood to the deceased, save as hereinbefore provided for the same, shall be subject to a duty of $10 for every $100 of the value.

Any portion of an estate where the deceased at time of death is domiciled in Ontario, and which is brought into Ontario by executors or administrators to administer shall be liable to duty, but if any succession duty or tax has been paid thereon elsewhere than in Ontario, and such duty or tax so collected is greater than the duty payable in this Province no duty shall be payable thereon; but if the duty so paid elsewhere is less than the Ontario duty then the difference must be paid.

Where any duty or tax shall have been paid by the estate upon any moveable or personal property locally situate outside of Ontario or any interest therein, an allowance shall be made for any outside duty paid thereon; the difference, if any, between the outside and Ontario duty shall be likewise paid. Provided the above allowances and differences are only made with respect to any country, state or British Province or possession where a similar allowance is made for the duty or tax paid under this Act on property in Ontario passing on the death of any person domiciled in any such outside country.

Should an executor or administrator, in order to escape payment of Succession Duty, distribute any part of said estate without bringing the same into Ontario, such executor or administrator shall be liable, personally, to pay His Majesty the amount of duty as if such assets had been brought within Ontario, provided that this shall not apply to payments made to persons domiciled out of Ontario from assets situate without the Province.

No foreign executor or administrator shall assign or transfer any stocks or shares in Ontario standing in the name of a deceased person, or in trust for him, which are liable to pay Succession Duty until such duty is paid or security given therefore as provided, and any corporation allowing a transfer of any stocks or shares contrary to this provision shall be liable to pay the duty.

An executor or administrator applying for letters probate or administration to the estate of a deceased person shall, before the issue of such letters to him, make and file with the Surrogate Registrar a full and correct statement under oath, giving (*a*) full itemized inventory of all the property of the deceased and the market value thereof. (*b*) The several persons to whom the same will pass under the will or intestacy and the degree of relationship in which they stand to the deceased; and such executor or administrator shall, before the issue of such letters probate, deliver to the Surrogate Registrar a bond, in a penal sum equal to ten per cent. of the sworn value of such property liable to Succession Duty, executed by himself and two sureties to be approved of by the Registrar conditioned for the due payment of any duty to which the property may be found liable.

Should the Treasurer of Ontario be not satisfied with the value so sworn to or with the correctness of the Inventory, he shall direct the Sheriff of the County or City to make a valuation and appraise the said property, and provision is made for an appeal from such appraisement to the Surrogate Judge of the County within thirty days after making and filing such assessment. The duties imposed by the Act unless otherwise provided for shall be due and payable at the death of the deceased or within eighteen months thereafter. Should they not then be paid interest at 5 per cent. per annum from death of deceased shall be charged and collected, and same shall be a lien upon the property in respect to which they are payable until fully paid. Provision is made however as regards postponement of the duty payable on any future or contingent estates, income or interest, with the consent of the Provincial Treasurer in writing, until such estate, income or interest comes into possession. The Treasurer of the Province, on being satisfied that the full amount of Succession Duty has been or will be paid in respect of an estate or in part thereof shall, if required, give to the person accounting for the duty a certificate which shall discharge from any further claim the property shown by the certificate to form the estate.

An administrator, executor or trustee having in charge or trust any estate, legacy or property subject to duty shall deduct same therefrom or collect the duty thereon from the person entitled to such property, and shall not deliver any property subject to duty to any person until he has collected the duty thereon.

The Supreme Court of Judicature for Ontario.

COURT OF APPEAL FOR ONTARIO.—Constituted for the hearing of appeals from the High Court of Justice, and from the County Courts. From the judgment of this Court an appeal lies, at the option of litigants, either to the Supreme Court of the Dominion, or to His Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. The Judges of this Court may be placed on the rota for the trial of Election petitions, with the Justices of the High Court, who as *ex-officio* Judges of this Court, choose from their number a Judge or Judges to sit in Appeal in case of there being a vacancy in this Court, or if, from illness or some other cause, one of the Judges of the Court is unable to be present, or is under any legal disqualification to hear an appeal. Sittings are held at such times and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the five regular sittings being the first Tuesday in March and September, and the second Tuesday in January, May and November, due notice of the time of holding of further sittings being given. If required, a second division of the Court, consisting of Judges of the High Court, can also sit for the disposal of business.

Chief Justice of Ontario—Hon. Sir Charles Moss ($8,000). *Justices of Appeal*—Hon. F. Osler, Hon. J. T. Garrow, Hon. J. J. Maclaren, Hon. R. M. Meredith ($7,000 each). *Registrar*—N. F. Paterson, K.C. *Asst. Registrar*—Charles S. Grant. *Usher and Librarian*—E. Oliver.

High Court of Justice for Ontario.

The jurisdiction of this Court extends to all manner of actions and causes, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may and shall hear and determine all issues of law, and also (with or without a jury as provided by law) determine all issues of fact, and give judgment, and award execution thereon, as might on the 5th day of December, 1895, be done in His Majesty's Court of King's Bench, Common Bench or in matters which relate to the King's Revenue (including the condemnation of contraband or smuggled goods) as may be done by His Majesty's Court of Exchequer in England, and also the like jurisdiction as the Court of Chancery in England, on the 4th day of March, 1837, in cases of fraud, accident, trusts, executors, administrators

co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possessed on the 10th day of June, 1857, to administer justice in all cases in which there is no adequate remedy at law.

Divisional Court sittings are held on the first Monday of each month (except vacation) to dispose of such matters as may properly be brought before a Divisional Court.

LAW CIRCUITS.—*Sittings for Hearing of Actions.*—In the Counties of York, Wentworth, Carleton and Middlesex, there is held an additional such Court every winter; and in the County of York there is held another such Court before the first day of July. Whenever in any year the judges may determine that it is not necessary to hold the latter such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery. In the City of Toronto the sittings for trial of actions without a jury are now practically continuous from 15th September to the 1st of next July, excepting Christmas vacation, and action can be set down as soon as ready for trial.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of His Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

WEEKLY SITTINGS.—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Tuesdays and Fridays. Court business on Mondays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

CHAMBERS.—Chambers are held each day for such business relating to actions as may be transacted by a single judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

LONG VACATION extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the day next preceding the Christmas Vacation, and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

An appeal lies to a Divisional Court.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county, for the trial of issues of fact, semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction, and (except in the County of York) a sitting for the trial of issues without a jury shall be held in each county on the first Tuesday in April and October in each year. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COUNTY COURT TERMS.—The several County Courts in Ontario hold four sittings in each year, commencing respectively on the second Monday in the month of January, and the first Monday in the months of April, July, and October, except the County of York, which commences on the first Monday in April, and the second Monday in January, June and October, and ending on the Saturday of the same week, unless extended by order of the Judge.

The County Judges are also Judges of the Surrogate Courts.

Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 and the original amount was ascertained by the signature of the defendant, subject in some cases to an appeal to a Divisional Court, and to $100 in other cases of debt; but the sum of the account to be gone into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. Synopsis of Fishery Laws.

Net fishing of any kind is prohibited in public waters, except under Leases or Licenses. The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays. A general weekly Close-time is provided in addition to special close seasons. The use of Explosive or Poisonous substances for catching or killing fish is illegal. The use of fire-arms for killing fish is prohibited. Mill-dams must be provided with efficient fish passes.

The above enactments and close seasons are supplemented in special cases, under authority of the *Dominion Fisheries Act* (Chap. 45 R. S.), by a total prohibition of fishing for stated periods. All communications relating to Fisheries should be addressed: Department of Marine and Fisheries, Ottawa.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each school receives a fixed amount of $375, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation to the Universities. There were 42 Collegiate Institutes, 102 High, and 105 Continuation Schools in connection with the Public and Separate Schools, doing the same grade of teaching, in Ontario in 1908.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

Educational Museum.—Connected with the Education Department is a Museum, containing specimens of school apparatus, etc., a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts; an art gallery of paintings by Canadian artists. Here also is the largest collection of archæological material in the Dominion, chiefly illustrative of Ontario, and of North America. David Boyle, Curator of Museum. The Museum is open to the public from 9 a.m. to 5 p.m

The Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 172 (1897), the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.

LIFE ASSURANCE.

Life assurance in Canada may be said to be entirely conducted by companies incorporated by the Dominion Parliament. Their operations are governed by the provisions of their Charter and those of the General Insurance Act of Canada.

During 1907, 43 active companies were engaged in business, of which 24 were Canadian, 8 British, and 11 United States. The new assurances effected for the year amounted to $90,382,932, a decrease of $4,630,273 over those of 1906. The amount effected in each of the three classes of companies was as follows:

Canadian Companies, $61,838,766, or 68% of the whole.
British " 3,501,743, " 4% " "
United States " 25,042,423, " 28% " "

The aggregate assurance in force in Canada at the close of 1907 was $685,405,399, or $29,144,299 in excess of that existing at the close of 1906. The total was distributed thus:

Canadian Companies, $450,573,724, or 66% of the whole.
British " 46,344,228, " 7% " "
United States " 188,487,447, " 27% " "

That life assurance has developed and increased with the progress of the country, is abundantly evidenced by reviewing the figures contained in the following table, which sets forth the total assurance in force at the four periods, 1875, 1885, 1895 and 1907.

TOTAL ASSURANCE IN FORCE.

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	$	$	$	$
1875	21,957,296	43,596,361	19,455,607	85,009,264
1885	74,591,139	49,440,735	25,930,272	149,962,146
1895	188,326,057	96,590,352	34,341,172	319,257,581
1907	450,573,724	188,487,447	46,344,228	685,405,399

It will be observed that in the period of 32 years the total life assurance in force has increased 706%. The Canadian Companies have increased their totals in the same time 1,952%; the United States Companies 332%; and the British Companies 138%.

The premium inoome of the Companies has kept pace with the increased volume of business, and in 1907 amounted to $23,143,872. The progress since 1875 has been uninterrupted, and is indicated below:

PREMIUM INCOME.

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	$	$	$	$
1875	707,256	1,551,835	623,296	2,882,387
1885	2,092,986	1,723,012	803,980	4,619,978
1895	5,702,783	3,452,205	1,137,366	10.292,354
1907	14,963,714	6,612,207	1,567,951	23,143,872

In the 32 years the amount paid by Canadians for life assurance has increased by 703%. The Canadian Companies' premium income in that time has increased 2,016% the United States Companies 326%; and the British Companies 152%.

The death rate in 1907 among the active companies was slightly below the average of previous years, being 10.31 per 1,000.

The figures for the past 10 years are as follows:—

DEATH RATE.

Year.	Death-rate per 1000.	Year.	Death-rate per 1000.
1898	10.55	1903	11.00
1899	10.73	1904	11.02
1900	11.23	1905	10.32
1901	11.21	1906	10.08
1902	10.30	1907	10.31

The total amount paid on behalf of policyholders during 1907 for death claims, matured endowments, surrendered policies, and dividends, amounted to $14,753,533. The practical benefits of the system of life assurance in Canada is exhibited in the following table, setting forth the payments made by companies under their contracts in each of the last six years:

Year.	Total Amount paid to Policyholders.	Year.	Total Amount paid to Policyholders.

FOREIGN BUSINESS.

During recent years some of the Canadian Companies have extended their field of operation to places outside of Canada. This remark especially applies to the Canada Life, Confederation Life, Manufacturers Life, North American Life, and Sun Life.

SYSTEMS OF ASSURANCE.

On the following page will be found the premium rates of the principal companies for quinquennial ages, upon the ordinary systems of assurance, viz.: Whole Life; Whole Life with premiums limited to 10, 15, and 20 years; Endowment Assurance payable at the end of 10, 15 and 20 years, or at prior death with annual premiums limited to those periods. It will be observed that the premiums of the different companies vary very slightly. This is only to be expected in view of the fact that the same mortality table (the Institute of Actuarics Healthy Male Table) and the same rate of interest (3½%) are employed by practically all of the Canadian Companies.

BASIS OF RESERVE.

The Dominion Insurance Act stipulates that the valuation of policies of assurance issued prior to January 1st, 1900, shall be made on the Institute of Actuaries (Hm.) Table of Mortality, and a rate of interest not exceeding 4½%, and of policies issued after that date on the same Table of Mortality and 3½% interest. It further stipulates, in respect to policies issued prior to January 1st, 1900, that the rate of interest shall be modified to 4% in 1910, and 3½% in 1915. Several of the companies have already placed their reserves for all policies upon the stronger 4% Standard, while some have even gone so far as to antioipate the ultimate 3½% rate.

INVESTMENT POWERS.

Prior to 1899 the investment powers of Canadian Life Assurance Companies were determined by their respective Acts of Incorporation. At the 1899 Session of the Dominion Parliament the General Insurance Act was amended, enlarging and making general the investment powers of the companies. A detailed statement of the investments of these institutions will be found in the Yearly Report of the Superintendent of Insurance for the Dominion.

ANNUAL RETURNS.

The General Insurance Act requires each Company to make to Government a sworn return, embracing great detail, each year not later than the 1st day of March. These returns include statements of receipts, expenditures, assets, liabilities, policies issued and policies terminated. They are subsequently published in the report of the Superintendent of Insurance.
